

55/8

8 1/2 (standard "Letter" paper width)

**Mid-Floor Landing Customization pattern:**

This pattern is for the stairs' angle only, not for sizing your parts. Mark your Landing assembly in place in your house, and use this angle to guide your cut.

Lay out this cutting pattern on a standard Letter (8 1/2 x 11) paper or print this diagram. "Print Scaling" may change the size this diagram prints but should not change the angle.
